

Job Title: Assembler – 2nd Shift
Department: Production

Location/Base: Wallace, MI
Reports to: 2nd Shift Supervisor

ABOUT ABS: Advanced Blending Solutions is a full service manufacturer of blending and material handling systems for the Plastics Industry. ABS is building an exciting, energy filled company that offers a comprehensive benefits package including health, vision, dental, life, disability, paid time off and 401K. The dynamic environment created at ABS is a great place for success and personal growth. ABS's corporate office and manufacturing facility is located in Wallace, MI and it has state of the art fabrication, machining, and panel building facilities.

We are looking for an **ASSEMBLER – 2ND SHIFT** to join our production team. This is an excellent opportunity for a mechanically inclined individual who enjoys the satisfaction of assembling parts to create a finished product and would like to contribute to the company's growth.

Position Overview: The assembler produces components by assembling parts and subassemblies.

Responsibilities (below is a partial list, see job description for full listing):

- Prepare work to be accomplished by studying assembly instructions, blueprint specifications, and parts lists; gather parts, subassemblies, tools, and materials
- Position parts and subassemblies by using templates or reading measurements
- Assemble components by examining connections for correct fit; fastening parts and subassemblies
- Verify specifications by measuring completed component
- Resolve assembly problems by altering dimensions to meet specifications; notify supervisor to obtain additional resources
- Keep equipment operational by completing preventive maintenance requirements; follow manufacturer's instructions; troubleshoot malfunctions; call for repairs
- Conserve resources by using equipment and supplies as needed to accomplish job results
- Perform basic visual quality inspections on products
- Maintain safe and clean working environment
- Support and comply with company's quality policies.

Skills & Qualifications:

- Utilize power tools and various equipment as needed to perform duties
- Knowledge of measuring equipment including micrometers, calipers, and tape measures
- Read and interpret blueprints
- Complete training to become forklift certified within 30 days
- Ability to lift up to 50 pounds occasionally, up to 25 pounds frequently

Education & Experience:

- High school diploma or equivalent
