

**Job Title:** Welding and Assembly Lead – 2<sup>nd</sup> Shift  
**Department:** Production

**Location/Base:** Wallace, MI  
**Reports to:** Production Manager

**ABOUT ABS:** Advanced Blending Solutions is a full service manufacturer of blending and material handling systems for the Plastics Industry. ABS is building an exciting, energy filled company that offers a comprehensive benefits package including health, vision, dental, life, disability, paid time off and 401K. The dynamic environment created at ABS is a great place for success and personal growth. ABS's corporate office and manufacturing facility is located in Wallace, MI and it has state of the art fabrication, machining, and panel building facilities.

We are looking for a **WELDING & ASSEMBLY LEAD – 2<sup>ND</sup> SHIFT** to join our production team. This is an excellent opportunity for a mechanically-minded individual with knowledge of welding and manufacturing processes who can utilize the company's ERP/computer system to solve problems and enjoys leading in a collaborative team environment.

**Position Overview:** The Welding & Assembly Lead is responsible to perform a dual function in the areas of welding, assembly, and inventory while directing and coaching the welding and assembly team to complete work efficiently and meet project deadlines.

**Essential Functions:**

- Serve as a resource to help team members be successful in their roles; assist them to remove barriers to their success
- Understand all responsibilities and functions for the Welder and Assembler positions to sufficiently coach team members in those roles; perform functions of those roles as necessary, depending upon training, skills, and education required
- Communicate scheduled tasks to employees and monitor progress
- Work with Production Manager, Production Scheduler, and Production Coordinator to ensure all projects are being completed efficiently and according to schedule
- Ensure that team members complete tasks in accordance with company's quality, production, and safety standards
- Trouble-shoot and resolve problems as necessary; communicate appropriately with affected team members and departments

Other functions, skills, and qualifications in accordance with the job descriptions for Welder, Assembler, and Inventory Assistant, as determined by the dual role position.

**Supervisory Responsibility:** Yes

**Lead Skills & Qualifications:**

- Forklift experience preferred, ability to become certified within 30 days required
- Ability to lift up to 75 pounds
- Read and interpret blueprints
- Strong interpersonal skills, including verbal and written communication
- Use of logic and reasoning in daily decision making and problem solving

- Highly organized with attention to detail; able to multi-task in a fast-paced, changing environment
- Proficient in Microsoft Office preferred

**Education & Experience:**

- Minimum 2 years' experience in a manufacturing setting required
- Supervisory experience preferred
- Minimum high school diploma or GED
- Experience with OSHA safety requirements preferred
